Feels like home

## About Stroud Homes

With more than 20 years of design and building experience, Stroud Homes has a proven track record of success and a strong reputation for exceptional service and superior quality. The man behind the locally owned brand is James Stroud.

Stroud Homes has a great reputation as an award winning builder. We can provide simple and cost-effective advice, from our designs or yours. How do we do it?

1. Unbeatable buying power via excellent supplier relationships
2. Commitment to continuous improvement to customer service and quality
3. Pre-pricing new homes on vacant land

Stroud Homes care about our customers and we do what we say we were going to do. We take the time to listen and work alongside our customers every step of the way, so the end result feels just right, like home.

Consumer please note: Stroud Homes is not a real estate agent, cannot sell land and will refer you to a licensed agent to complete any land purchase. Stroud Homes has used the price (as advertised by local real estate agents) for the block of land referred to in this package. Using this advertised price allows us to helpfully provide you with a price that is more realistic because we've tailor fit the home to the land - considering site works, water and sewer pipe and electrical lead-in lengths and other site specific items.
